Introduction to the special issue on NorMAS 2009

Title: Introduction to the special issue on NorMAS 2009
Publication Type: Journal Article
Year of Publication: 2013
Authors: Boella G [1], Noriega P [2], Pigozzi G [3], Verhagen H [4]
Journal: Journal of Logic and Computation
Volume: 23
Pagination: 307-308
Publisher: Oxford University Press
Keywords: normative MAS [5], Norms [6]

Abstract: In March 2009, the fourth NorMAS (Normative Multi-agent Systems) was held at Schloss Dagstuhl Leibniz Center for Informatics. During the seminar, around 30 invited participants presented their current research, and discussed ongoing work and open problems discussed. This special issue presents a few of the papers discussing formals models (both logic and computational implementations) and normative concepts of relevance to the area.
